What’s our human Purpose?

Dr. MARTIN LUTHER KING JR.
“there is a final reason I think that Jesus says, “Love your enemies.” It is this: that love has within it a redemptive power. And there is a power there that eventually transforms individuals. ... Because if you hate your enemies, you have no way to redeem and to transform your enemies. But if you love your enemies, you will discover that at the very root of love is the power of redemption.

You just keep loving people ..., even though they’re mistreating you.... Don’t do anything to embarrass them... Oh, they react in many ways in the beginning. They react with bitterness because they’re mad because you love them like that. They react with guilt feelings, and sometimes they’ll hate you a little more at that transition period, but just keep loving them. And by the power of your love they will break down under the load. That’s love, you see. It is redemptive, and this is why Jesus says love.”

What’s after Death?

CAN YOU BE CERTAIN OF YOUR FUTURE

“Dear friends, let us love one another, for love comes from God. Everyone who loves has been born of God and knows God. Whoever does not love does not know God, because God is love. This is how God showed his love among us: He sent his one and only Son into the world that we might live through him.” First John 4:7-9

“I write these things to you who believe in the name of the Son of God so that you may know that you have eternal life.” First John 5:13

WAS IT SOMEONE?
Dr. Antony Flew, There Is a God: How the World’s Most Notorious Atheist Changed His Mind
“... we have all the evidence we need in our immediate experience ... only a deliberate refusal to “look” is responsible for atheism of any variety....”

“.... Science spotlights three dimensions of nature that point to God. The first is the fact that nature obeys laws. The second is the dimension of life, of intelligently organized and purpose-driven beings, which arose from matter. The third is the very existence of nature.”

WAS IT NOTHING?
Dr. Robert Jastrow, famous agnostic, astrophysicist
“Astronomers now ... have found that all this happened as a product of forces they cannot hope to discover. That there are what I or anyone would call supernatural forces at work is now, I think, a scientifically proven fact.”

Famous Atheist, Aldous Huxley, author of BRAVE NEW WORLD.
“For myself, as no doubt for most of my friends, the philosophy of meaninglessness was essentially an instrument of liberation from a certain system of morality. We objected to the morality because it interfered with our sexual freedom.... There was one admirably simple method of ... justifying ourselves in our erotic revolt: we would deny that the world had any meaning whatever.”
